EMPLOYMENT

Present

Technical Officer *International Labour Organization (ILO); February 2025 -*
Modeling and research-oriented position in the Data Production and Analysis Unit of the Statistics department. I contribute to the production of modelled estimates made available on ILOSTAT, and to the production of different analytical note, briefs.

Faculty Lead *The Graduate Institute; January 2023 -*
Lead of interdisciplinary master students in their Applied Research Project for the Sustainable Trade and Finance track. I contribute to development and sustain partnerships with partners (international organizations, NGOs, *etc.*) and supervise the students in their writing of an applied research report.

Lecturer *The Graduate Institute; September 2022 -*
In charge of classes statistics (political science and interdisciplinary master students) - total of about 175 students. I also teach in various workshops on methods, introduction to mathematics, Stata language.

Past

Consultant *International Labour Organization (ILO); July 2024 - October 2024*
Working on labour market and Artificial Intelligence and generalizing data sets on policy reforms related to pension and development at a macro level.

Visiting Professor*Ecole Hôtelière de Lausanne; February 2023 - August 2024*

In charge of an introductory class of statistics for bachelor students (French & English) - number of students varying across semesters from 60 to 160.

Lecturer*HEC Lausanne University; August 2023 - February 2024*

In charge of classes of microeconomics for first year bachelor students - total of about 900 students.

Consultant - Data & Statistical Analyst*UNCTAD; July 2022 - May 2023*

In charge of a research on international project finance, its measurement, its links with other forms of Foreign Direct Investment, and its potential.

In charge of estimating the SDG financing gap.

Academic Supervisor*The Graduate Institute; March 2022 - February 2023*

Supervision of interdisciplinary master students in their Applied Research Project, for which they work in teams for an external partner on a given topic. I accompany the students in their progress and help with the methodological challenges they might face.

PostDoc*NCCR - The Migration-Mobility Nexus; June 2021 - February 2022*

PostDoc working on a research project related to education in a Sub-Saharan country. The research project analyzes the impact of rainfall shocks on the learning outcomes of primary school students.

Consultant - Research Assistant – Data & Statistics*UNCTAD; February 2021 - May 2021*

Contribution to the writing of the World Investment Report 2021. I mostly worked on the impact (in particular on foreign direct investment) of rescue and recovery policies implemented by countries around the world with respect to the pandemic.

Teaching Assistant*The Graduate Institute; September 2017 - May 2021*

Classes in interdisciplinary programs for master students: statistics, qualitative methods, capstone projects, law and economics of bargaining, trade and development, Asian security systems.

Facilitator MOOC*The Graduate Institute; Geneva; May 2017 - June 2017*

International Affairs: Globalization *taught by Richard Baldwin*. I contributed to facilitate interactions on the platform among the learners.

Program Manager*Le cercle des économistes; Paris; November 2015 - July 2016*

Preparation of the Forum *Les rencontres économiques d'Aix-en-Provence*. This forum gathered about 250 speakers over 40 conferences. Speakers were economists, politicians, CEOs, leaders of international organization, *etc.*

Field Research Associate*J-PAL; Lorraine; September-October 2015*

Project about Primary Education about Sciences. I contributed to the data collection on the field.

Research Intern*Cercle Gépolitique; Paris; April 2015 - June 2015*

Research on urban segregation and integration of migrants. I focused on the link between integration, segregation and exogamy.

Intern*The Dariu Foundation; Ho Chi Minh City; May 2014 - July 2014*

Survey design, Implementation and Analysis
